Sessions and Fractions

CPT code 77427 may only be submitted for five *sessions*, regardless of the actual time period in which the services were furnished. Multiple *fractions* representing two or more treatment *sessions* furnished on the same day may be counted separately only if there was a distinct break between same-day therapy *sessions*, and only if the *fractions* are of a character usually furnished on different days. Humana plans deny, as inappropriately billed, charges for fewer than five *sessions*.

Exception: A provider may submit *CPT code 77427* for three or four *sessions* at the end of a course of treatment. Humana plans deny, as inappropriately billed, charges at the end of a course of treatment for fewer than three *sessions*.

Units

The billing provider must submit each unit of five *sessions* as a distinct single-unit charge. For a three-*session* unit or four-*session* unit at the end of a course of treatment, the billing provider must submit a single-unit charge distinct from all other units.

Humana plans allow no more than one unit per charge and deny any additional unit(s) as inappropriately billed.

Service Dates

Humana plans require providers to submit each charge for *CPT code 77427* with a "from" date representing the date of the first *session* of the charge and a "to" date representing the date of the last *session* of the charge.

Note

A provider must submit a charge for *CPT code 77427* with a note indicating the number of *fractions* performed. Use the following syntax in Loop 2400 in the 837 electronic transaction: "NTE✻ADD✻X FRACTION(S)~". For example, if five *fractions* were performed, enter "NTE✻ADD✻5 FRACTIONS~". If one *fraction* was performed, enter "NTE✻ADD✻1 FRACTION~".
