Disclaimer: *The intended audience of this medical claims payment policy is healthcare providers who treat Humana members. This policy is made available to provide information on certain Humana claims payment policies. This policy is a guideline only and does not constitute medical advice, guarantee of payment, plan pre-authorization, an explanation of benefits, or a contract. This policy does not govern whether a procedure is covered under a specific member plan or policy, nor is it intended to address every claim situation. Claims may be affected by other factors, such as: state and federal laws and regulations, provider contract terms, and our professional judgment. This policy is subject to change or termination by Humana. Humana has full and final discretionary authority for its interpretation and application. No part of this policy may be reproduced, stored in a retrieval system or transmitted, in any shape or form or by any means, electronic, mechanical, photocopying or otherwise without express written permission from Humana. When printed, this version becomes uncontrolled. For the most current information, always refer to the following website:* ***Humana.com/ClaimPaymentPolicies***

Overview

This policy outlines Humana's criteria for items that are reimbursable as implantable devices.

Medicare Advantage Payment Policy

In addition to the policy, claims payments are subject to other plan requirements for the processing and payment of claims, including, but not limited to, requirements of medical necessity and reasonableness and applicable referral or authorization requirements.

Subject to all applicable limitations, such as provider contract terms, a covered item may be eligible for specific reimbursement as an implantable device only when the item is of a type that is implanted, such as a piece of tissue, a tooth, a pellet of medicine, a tube or needle containing a radioactive substance, a graft, or an insert. Also included are liquid and solid plastic materials used to augment tissues or to fill in areas traumatically or surgically removed, stents, artificial joints, shunts, pins, plates, screws, and anchors.

Humana may review documentation, including but not limited to, itemized bills, invoices, and medical records, to determine whether items reported with implant revenue codes meet Humana's definition of an implantable device. Humana requires providers to make such documentation available to Humana upon request. Humana does not reimburse an implant revenue code if the item does not satisfy Humana's definition of an implantable device.
