Humana. Claims Payment Policy

Subject: Laboratory – Folate Testing

Application: Medicare Advantage Products
Policy number: LAB2023018
Published date: 05/2023
Revision date: 03/2026

Disclaimer**: The intended audience of this medical claims payment policy is healthcare providers who treat Humana members. This policy is made available to provide information on certain Humana claims payment policies. This policy is a guideline only and does not constitute medical advice, guarantee of payment, plan pre-authorization, an explanation of benefits, or a contract. This policy does not govern whether a procedure is covered under a specific member plan or policy, nor is it intended to address every claim situation. Claims may be affected by other factors, such as: state and federal laws and regulations, provider contract terms, and our professional judgment. This policy is subject to change or termination by Humana. Humana has full and final discretionary authority for its interpretation and application. No part of this policy may be reproduced, stored in a retrieval system or transmitted, in any shape or form or by any means, electronic, mechanical, photocopying or otherwise without express written permission from Humana. When printed, this version becomes uncontrolled. For the most current information, always refer to the following website: **Humana.com/ClaimPaymentPolicies

Medicare Advantage Payment Policy

As a Medicare Advantage plan, we have developed payment policies to explain coverage more fully for services. The criteria outlined will apply to Medicare Advantage plans except when the procedure(s) has established criteria through the Original Medicare National Coverage Determinations (NCDs) and Local Coverage Determinations (LCDs) as outlined below.

In addition to this policy, claims payments are subject to other plan requirements for the processing and payment of claims, including, but not limited to, requirements of medical necessity and reasonableness and applicable referral or authorization requirements.

- Measurement of serum folate concentration (CPT code 82746*) **IS REIMBURSABLE** in the following situations:
  - For individuals diagnosed with megaloblastic, macrocytic anemia or folate deficiency
  - For individuals having undergone, or for those who have been scheduled for, bariatric procedures
- Measurement of red blood cell (RBC) folate (CPT code 82747) **IS NOT REIMBURSABLE**.
- Folate receptor autoantibody testing (CPT code 0399U) **IS NOT REIMBURSABLE**.

Applicable procedures for Medicare Advantage plans

Procedure Code	Code Description
82746*	Folic acid; serum
82747	Folic acid; RBC
0399U	Neurology (cerebral folate deficiency), serum, detection of anti-human folate receptor IgG-binding antibody and blocking autoantibodies by enzyme-linked immunoassay (ELISA), qualitative, and blocking autoantibodies, using a functional blocking assay for IgG or IgM, quantitative, reported as positive or not detected Proprietary test: FRAT® (Folate Receptor Antibody Test) Lab/Manufacturer: Religen Inc

Original Medicare Local Coverage Determinations (LCDs)

Contractor Name	Policy Title	Policy Number	Procedure Code
Novitas Solutions, Inc.	Assays for Vitamins and Metabolic Function	L34914	82746

**The payment criterion for 82746 applies to all Medicare jurisdictions except for states awarded to Novitas Solutions, Inc.*
