Medicare Advantage Payment Policy

As a Medicare Advantage plan, we have developed payment policies to explain coverage more fully for services. The criteria outlined will apply to Medicare Advantage plans except when the procedure(s) has established criteria through the Original Medicare National Coverage Determinations (NCDs) and Local Coverage Determinations (LCDs) as outlined below.

In addition to the policy, claims payments are subject to other plan requirements for the processing and payment of claims, including, but not limited to, requirements of medical necessity and reasonableness and applicable referral or authorization requirements.

- Oral screening by low-risk human papillomavirus (HPV) testing (CPT code 87623*) **is NOT REIMBURSABLE**.
- Oral screening by gene expression profiling by ribonucleic acid (RNA) sequencing (CPT code 0296U**) **IS NOT REIMBURSABLE**.

Applicable procedures for Medicare Advantage plans

Procedure code	Code description
