Disclaimer: *The intended audience of this medical claims payment policy is healthcare providers who treat Humana members. This policy is made available to provide information on certain Humana claims payment policies. This policy is a guideline only and does not constitute medical advice, guarantee of payment, plan pre-authorization, an explanation of benefits, or a contract. This policy does not govern whether a procedure is covered under a specific member plan or policy, nor is it intended to address every claim situation. Claims may be affected by other factors, such as: state and federal laws and regulations, provider contract terms, and our professional judgment. This policy is subject to change or termination by Humana. Humana has full and final discretionary authority for its interpretation and application. No part of this policy may be reproduced, stored in a retrieval system or transmitted, in any shape or form or by any means, electronic, mechanical, photocopying or otherwise without express written permission from Humana. When printed, this version becomes uncontrolled. For the most current information, always refer to the following website:* ***Humana.com/ClaimPaymentPolicies***

Overview

This policy outlines Humana's reimbursement for long-acting reversible contraception (LARC) provided to a postpartum inpatient. LARC devices are a type of birth control that provides long-term pregnancy prevention. They are the most effective form of reversible birth control, with a failure rate of less than one percent. There are two types of LARC devices: intrauterine devices (IUDs) and implants.

Kentucky Medicaid Payment Policy

In addition to the policy, claims payments are subject to other plan requirements for the processing and payment of claims, including, but not limited to, requirements of medical necessity and reasonableness and applicable referral or authorization requirements.

The following policy applies to only facility services.

As used in this policy, x represents any appropriate frequency code, which is the final digit of the type of bill (TOB) code.

Humana reimburses for a LARC device inserted for a postpartum inpatient separately from the inpatient hospital labor and delivery Diagnosis Related Group (DRG) payment. In such circumstances, insertion of the LARC device is reimbursed at the fee schedule rate.

To facilitate such payment, the facility should submit a UB-04 claim form or its electronic equivalent with TOB 11x. The facility should report insertion of the LARC device with *HCPCS codes J7296, J7297*, *J7298*, *J7300*, *J7301* or *J7307*.

Note: In certain circumstances, additional payment rules may apply. For example, when applicable, claims are subject to the Humana Healthy Horizons in Kentucky out-of-network payment policy. For more information, see the relevant guidance in the References section of this policy.

Definitions of *Italicized* Terms

- ***HCPCS code J7296***: Levonorgestrel-releasing intrauterine contraceptive system, (Kyleena), 19.5 mg
